

[26th August 1925]

The hon. Sir C. P. RAMASWAMI AYYAR :—“ So far as I remember, subject to verification, what was said with regard to this question was that the Indian Chamber of Commerce had been started for some particular purpose, namely, with reference to the then impending Bill, that it had not been in existence for a long time, that it was not known whether it was transacting commercial or any other business, and that it was started merely to get the right of representation on the board. Now whether it has done anything more or whether it has transacted any business afterwards is a matter on which I will have to satisfy myself. So after looking into the whole matter if the Government are satisfied with the purpose for which the Indian Chamber was formed and if they also find that its scope has been extended, then the matter of introducing a Bill will be considered.”

Mr. A. CHIDAMBARA NADAR :—“ So far as my information goes, it seems to me that the Chamber has addressed the Government on certain matters concerning the trade at Tuticorin and the Tuticorin Port Trust Board. If so, the Government may have some knowledge of the activities of the Chamber. In such a case a Bill may be introduced.”

The hon. Sir C. P. RAMASWAMI AYYAR :—“ That will be considered.”
